Activities & Perspectives of the Si-Cluster : the ESA-BIC Greece”

Wednesday, 23 February 2022 15:30 (10 minutes)

ESA BIC Greece, a key element of the Greek Space Industry aimed to strengthen space related start-ups in Greece, has already started its operation. By supporting 25 incubatees over a period of 5 years, ESA BIC will underpin the creation, grow and strengthening of space activities in Greece, contribute to the national innovation and support transfer of technologies from/to the space sector.

Presenter: Dr SANCHEZ, Jorge (Corallia/Si-Cluster)

Session Classification: Local Expertise
