

Innovative Facility for Isotope GENERation with Efficient Ion Accelerator

T1.2 Quality assurance, risks, ethics and IPR management

Tina Vodopivec, Cosylab

Kick-off meeting

3-4 April 2025

Thessaloniki, Greece

T1.2 Quality assurance, risks, ethics and IPR management

The deliverable will provide **guide for quality, compliance, and risk management** for the IFIGENEIA project.

It will define:

- methodologies,
- standards, and
- processes

to achieve project objectives, including a risk management framework.

The manual will also address ethical and intellectual property considerations, ensuring responsible practices and compliance with EU regulations.

T1.2 Quality assurance, risks, ethics and IPR management
