

CEMEPE & SECOTOX 2027 Conference

30 May 2027 to 3 June 2027

Scientific Programme

Air quality

Airborne diseases

Biosensors and smart monitoring systems

Coastal planning and policy

Circular economy, industrial symbiosis and zero waste

Ecosystem analysis and protection

Ecotoxicology

Environmental Compliance

Energy and environment

Environmental economics

Environmental education

Environmental impact assessment and risk analysis

Environmental investment assessment

Environmental legislation and policy

Environmental restoration

Fate and transport of pollutants

GIS and remote sensing

Global climate change

Green chemistry

Industrial waste

Natural resources management

Natural wastewater treatment systems

Pollution control technologies

Renewable energy sources

Preservation of Cultural and Architectural Heritage

Small and decentralised wastewater management

Spatial and urban planning

Sustainable production and consumption

Tourism and environment

Urban aerosols and health effects

Visual impact and noise pollution

Waste monitoring and management

Waterborne diseases

Water-energy-food nexus

Water pollution

Water resources engineering and management

Climate Change Adaptation in Agriculture
